 ST. MARIEN

About us

...here for the people!

Waldkrankenhaus St. Marien gGmbH

The Waldkrankenhaus St. Marien is a non-profit limited company and a level one hospital. In addition to the surgical and internistic healthcare spectrum that is usual for a hospital of this level, full orthopaedic and urological care (University) and specialist cardiological and gastro-enterological care are also provided.

With seven main specialist departments and three external-physician departments for intensive care, as well as a geriatric clinic and geriatric rehabilitation centre, the Waldkrankenhaus St. Marien cares for around 12,000 inpatients and 15,000 outpatients every year.

The outpatient surgery centre (AOZ) at the Waldkrankenhaus St. Marien performs outpatient operations to the highest standards.

In our day clinic B1, the non-surgical patients receiving outpatient care also receive the same excellent treatment.

Cooperation with the in-house x-ray clinic and close collaboration with specialist consultants, both within our outpatient clinic and externally in Erlangen and surrounding areas, ensures that our patients receive the very best treatment available.

In addition, the Waldkrankenhaus St. Marien's care facilities inside the hospital – the "Pflegezentrum St. Elisabeth" (St. Elisabeth Care Center) and the „Marienhospital Seniorenpflegezentrum GmbH“ (Marienhospital Senior Citizens' Care Center Ltd.) at 32 Spardorfer Straße is able to provide the highest standard of care for up to 132 people.

As a denominational hospital, the Waldkrankenhaus St. Marien is particularly committed to the well-being of its patients. For patients, visitors and staff, our motto is "Für den Menschen" („For the people“). This refers not only to professional competence and impeccable medical and nursing care, but also – and most importantly – to the human connection. Our mission statement underlines and augments these basic principles.

Our hospital is certified.

We are the first Catholic hospital in Bavaria to have successfully set itself the high ProCum Cert and KTQ quality standards. With the successful extension of the certificate on

28th June 2007, to be effective until the year 2010, the Waldkrankenhaus St. Marien was again successfully awarded verifiable proof of its high standards of quality.
